Mark/Katrina,

Please see the revised figures for the report. I felt like this would be a good way to encompass the information and show them with the maps that we had already established. Let me know if you think these will work to display the information that you wanted to present.

Thanks!

Patrick Bond

Katrina,

Please see my comments below in red. We can discuss when you return to the office.

Thanks

Subject: RE: Wilcox Report

Mark,

I have reviewed the comments provided and most of them seem to be straight forward and easily addressed. However, I do need some additional clarification on the following comments:

- Comment 1 – Change to the report title. We typically use the name on the TDD for the report title. Do you want us to make the requested change or stay consistent and use the TDD name? **Will update report to use official company name.**
- Comment 4 – Is this in reference to the fence installation around the church? **Will reference fencing around church and (b) (6) properties.**
- Comment 6 – References and attached figure – however there was no attached figure. **Katrina-Derrick/Patrick requesting assistance/additional info with comments regarding figure**
- Comment 7 – References a specific figure however the figure was not attached. **Katrina-Derrick/Patrick requesting assistance/additional info with comments regarding figure**
- Comment 8 – We typically provide everything as separate files. Do you want us to combine things? **Will keep separate. A disc including all report attachment docs will be provided at a later date**
- Comment 9 – We typically do not combine everything into one pdf file. Everything is left as separate files. **Will keep separate. A disc with all documents will be provided at later date.**
- Comment 11 – We typically do not include the HASP with the report. Would you like for us to provide the HASP as an attachment? **Will forward Katrina a copy of HASP if needed.**
- Comment 14 – I am not sure where Wilcox process area is located that is referenced. **Revisions from Katrina's comments should address**

Thanks.
